

H O U S E M.D

Someone has mommy or daddy issues	It's not lupus	House tells a patient he'll die unless he cooperates	House's team disagrees with his diagnosis	They have to choose which tests to do, because they're out of time or there's some other restraint
House acts against hospital rules	There is sexual tension between two characters	House makes an inappropriate sexual comment to Cuddy	You find out a patient is fibbing on his medical history	Someone goes into cardiac arrest
House and his team performs any medical procedure against the patient's wishes	Gregory House pops a Vicodin	They perform every test they can think of on a diagnostic fishing expedition, no matter the cost	His team illegally searches someone's home	A patient bleeds profusely
House talks down to one of the hospital staff	House makes fun of Aussies to Chase	A patient spews "blood" from a body orifice	House lies in a patient report	Someone has a seizure
House insults one of his clinic patients	Whenever someone makes a current-event or pop-culture reference	House illegally searches someone's home	A patient doubts House's diagnosis	Cuddy countermands House's orders

H O U S E M.D Drinking B I N G O

When one of these things happens on House, mark off the square and take a drink. Play until you get "HOUSE" or until you clear the board.

H O U S E M.D

Whenever someone makes a current-event or pop-culture reference	A patient spews "blood" from a body orifice	House makes fun of Aussies to Chase	There is sexual tension between two characters	House tells a patient he'll die unless he cooperates
House makes an insensitive racial remark to Foreman	House's team disagrees with his diagnosis	Someone goes into cardiac arrest	House and his team performs any medical procedure against the patient's wishes	House makes an inappropriate sexual comment to Cameron
House talks down to one of the hospital staff	Cuddy countermands House's orders	House illegally searches someone's home	House insults one of his clinic patients	House acts against hospital rules
They perform every test they can think of on a diagnostic fishing expedition, no matter the cost	You find out a patient is fibbing on his medical history	A patient doubts House's diagnosis	Gregory House pops a Vicodin	Someone has a seizure
House lies in a patient report	They think it might be cancer	A patient spews "fluid" from a body orifice	Someone has mommy or daddy issues	House acts against Cuddy rules
